### From Cindy Bell's Saddle...

It was bitter cold starting the 100 at 6:30...16 degrees on my thermometer. (Take a)Chance still had ice on his

whiskers after 20 miles...and Steve Rojek had a frozen mustache! The trail was well marked this year and included

at lot of new trail, some of it very technical with lots of roots and moguls. There was not as much deep sand as in

the past. Hopefully more riders will come out next year and tackle this challenging, but DO-ABLE trail. I'm so

proud of my big new big guy. He looked and felt good all day...and he *finally* got tired enough to eat and re-

lax. Several people asked my why I would choose Far Out Forest for my horse's first 100. Guess it is a tradition

for me. It was Wameco's (and my) first 100 and Farley's first 100. I guess once you've done FOF 100, all the rest of

the 100's (well except maybe Old Dominion) are EASY!
